

Environmental Policy Statement

Green Lighting Ltd.

GL (Green Lighting Ltd.) has manufactured lighting for over a decade. Our clients comprise of local, regional and national builders across the UK. Our products meet UK building regulations.

At GL (Green Lighting Ltd.), we believe that businesses are responsible for achieving good environmental practice and operating in a sustainable manner. We recognise that our activities have an impact on the environment in terms of the use of raw materials, emissions to air and water and waste generation, and seek to minimise this as far as is reasonably practicable.

We are, therefore, committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.

It is our priority to encourage our customers, suppliers and all business associates to do the same. Not only is this sound commercial sense for all; it is also a matter of delivering on our duty of care towards future generations.

At GL (Green Lighting Ltd.) our statement of general policy is to:

- Fully support and comply with or exceed the requirements of current environmental legislation and codes of practice (including LIAQA)
- Minimise our waste and then reuse and recycle as much of it as possible
- Minimise energy and water usage in our buildings, vehicles and processes in order to conserve supplies and minimise our consumption of natural resources, especially where they are non-renewable
- Minimise total packaging and ensure that packaging that is required for our products is recyclable to minimise their environmental impact
- Operate and maintain company vehicles (where appropriate) with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport, car sharing and use of electric vehicles where possible
- Apply the principles of continuous improvement in respect of air, water, noise and light pollution from our premises and reduce any impacts from our operations on the environment and local community.
- As much as possible, purchase products and services that do the least damage to the environment and encourage others to do the same.
- Assess the environmental impact of any new processes or products we intend to introduce in advance.
- Set environmental objectives and publish them in the company's promotional literature.
- Supply products that are UKCA certified, including compliance with RoHS.
- Obtain certification and accreditation under ISO 14001:2015, within 12 months

Signed: (Anthony Ottway, Managing Director)
